HTML Basics  
HTML Forms  
HTML Semantics

### SUMMARY & CAREER GOALS

I am an IT student who just graduated from college, with 1 year of experience as a frontend developer for 2 companies – having good knowledge of Angular framework through 5 company projects (8-9 websites) and personal projects.

A **responsible, hard-working, and self-study** member. I love solving new, complex problems related to optimization.

Short-term goal: Integrate with the company and work quickly.

Long-term goal: Develop me better day by day, thereby becoming an expert in my field.

### WORK EXPERIENCES

#### FRONTEND DEVELOPER

AppCore | Can Tho | 1/2022 - 5/2022

- Main programmer in 2 Frontend Angular projects (5 medium-sized websites) with clients from Australia, in which:
  - Get design mockups, review them, and give feedback to the designer.
  - From design, build SPA websites with reusable pages and components.
  - Handle user interactions and integrate APIs from the Backend.
  - Use third-party libraries to build large UI components and functions like online payments, user authentication, etc...
- There are more than 500 commits approved on the company's git, solving more than 200 assigned tasks.
- Get acquainted with the knowledge of Scrum - Kanban, Web Optimization, UI - UX, improve teamwork skills, self-research skills, and the ability to work under high pressure.

#### FRONTEND DEVELOPER INTERN

VITOP MEKONG | Can Tho | 5/2021 - 12/2021

- Participated in website development from existing designs. Presented 4 projects, including 3 Angular and 1 CSS library project. Over 400 commits on Github projects (since June 2021).
- Took part in basic practical training on frameworks - frontend libraries: Angular, RxJS, Bootstrap, Swiper,...

\* **Intermediate Level**: The skill has a average understanding, has been applied in the company's actual project
